

Region V Community of Practice SOCIAL JUSTICE IN MATHEMATICS CONFERENCE

CONFERENCE OUTCOMES

- Develop an understanding of culturally relevant and social justice pedagogy in mathematics
- Learn strategies for supporting students in developing a positive mathematics identity and becoming successful math learners

Keynote Speakers

Dr. Kyndall Brown

Executive Director,
California Math Project

Kyndall Brown has over 30 years of experience in mathematics education. He was a secondary mathematics teacher for 13 years. He has been a professional development provider for over 25 years, serving as a math resource teacher for the Los Angeles Systemic Initiative, and as director of the UCLA Mathematics Project. His research focuses on the impact of culture and identity on the ways that African-American student learn mathematics.

Dr. Harold Asturias

Director, the Center for
Mathematics Excellence
and Equity, Lawrence Hall
of Science

Harold Asturias has extensive experience providing professional development for mathematics teachers in large urban districts and smaller and rural districts. He has focused on designing and implementing professional development for K-12 mathematics teachers who teach English Language Learners. Harold has worked extensively with districts in the Bay Area. He recently worked closely with Oakland and San Francisco in designing and implementing respective policies on de-tracking.
