## SILICON VALLEY MATHEMATICS INITIATIVE

PL/FOLLOW-UP SESSIONS  
2022-2023

### EQUITABLE & ENGAGING MATHEMATICS TEACHING FOR ALL STUDENTS

The 2022 CA Mathematics Framework states that real-world tasks can offer students opportunities to mathematize contexts that connect to their lived experiences. When teachers get to know their students—not only how they think about mathematics, but also their curiosities, interests, and experiences—they are better able to choose, craft, and launch tasks that engage students with big ideas in meaningful and relevant ways. Each month the PL sessions will explore and share ideas and tools focused on equitable & engaging teaching for all students utilizing SVMI resources and rooted in mathematically powerful classrooms.

Please RSVP at [bit.ly/SVMIcalendar](https://bit.ly/SVMIcalendar) (Case Sensitive)

# ***SVMI's In-Person PL/Follow-Up Sessions for 2022-2023***
