

Twenty-Third Annual In-Person Summer Coaching Institute

The Silicon Valley Mathematics Initiative is sponsoring its Twenty-Third annual In-Person Summer Coaching Institute. We will focus on geometry and measurement across grade levels and courses. The goal of the 2022 Summer Institute is to support teacher leaders with taking real-world situations into the classroom; having their students mathematize them; & make generalizations, create convincing arguments, and/or to analyze their findings; all anchored in the Teaching for Robust Understanding of Mathematics (TRU Math) Framework, specifically equitable access, and making connections to the new California Mathematics Framework.

The expectation for participating coaches, site leaders, and teachers include:

- The participants are employees of a SVMI member institution for 2022-2023
- Attend 5 days of professional development during the summer of 2022
- 5 days of follow-up professional development during the 2022-2023 school year

The Coaching Institute is for teams of teachers and leaders to come together to establish a learning community relationship, to improve their own math content, and plan for the school year. The team works intensively throughout the school year for improving math instruction and learning. The goal is to jump-start the partnerships, build a learning team, and grow in mathematical understandings. Teams may range in size from three up to twenty or more.

The Summer Coaching Institute will be held in two locations in northern California during the summer of 2022:

- Contra Costa County: Monday, July 25, through Friday, July 29, 2022
 - Location: Stanley Middle School, 3455 School Street, Lafayette, CA 94549
 - Each day will begin at 8:30 with refreshment available at 8:00 a.m., include a provided lunch, and will end at 3:00 p.m.
 - Administrator Sessions on Tuesday and Thursday from 8:00 a.m. to noon.
- Stockton: Monday, July 25, through Friday, July 29, 2022
 - Location: Don Riggio School, 3110 Brookside Rd, Stockton, CA 95219
 - Each day will begin at 8:30 with refreshment available at 8:00 a.m., include a provided lunch, and will end at 3:00 p.m.
 - Administrator Sessions on Tuesday and Wednesday from 8:00 a.m. to noon.

Participants will be able to select one mini-course in addition to attending the whole group session and district team planning. This mini-course offering by grade level span from K through High School and will include math content, pedagogy and the use of assessment in the classroom. In addition to grade level span mini-courses, there will also be math coaching/leadership session. This institute will also offer two half-day Administrator Sessions. If a member institution is sending at least 4 participants, administrators of the institution may attend the Administrators Sessions at no charge. Otherwise, the enrollment fee is \$100 per administrator.

The enrollment fee of each of the coaching institute is \$1,300 per participant. Each participant will receive a stipend of \$500 for the five-day institute. A member institution will receive **one scholarship** for every **ten participants** registered and enrolled in the In-Person Summer Coaching Institute.

Applications for the Coaching Institute are accessible via the website www.svmimac.org or by contacting Cindy Chin, Silicon Valley Mathematics Initiative, by phone (408) 776-1645 or email cindy@svmimac.org. Please submit applications by **May 27, 2022**.

The district agrees to all the terms in the In-Person Summer Coaching Institute Guidelines 2022. This includes SVMi district membership in SVMi for the 2022-2023 school year and paying the annual membership dues. In addition, the district is encouraged to provide release time for all participants to attend the five SVMi P.D. follow-up sessions during the 2022-2023 school year.

District Representative: _____ Date: _____

Student-Focused Content Coaching in Mathematics

Student-Focused content coaching is a collaborative relationship in which coach, student, and teacher benefit and grow. Discussions will focus on the implementation of strategies and techniques for a pedagogical content coaching program. Participants will gain skills in how to support teachers through a successful coaching program. Using video case studies and other tools, we will look at how the achievement of all students is improved when a teacher becomes a more confident member of a community of learners. Models of effective coaching techniques will be explored and practiced. Empirical data from districts where coaching is in place will be shared.

Administrators

Participants will have the opportunity to experience and learn about the content being developed with teachers attending the Coaching Institute and methods of supporting teachers' implementation of these concepts at school sites throughout the school year.

- The administrator sessions at Contra Costa County will be on Tuesday, July 26th & Thursday, July 28th.
- The administrator sessions at Stockton will be on Tuesday, July 26th & Wednesday, July 27th.
